

PROJECT TITLE:

Cabrillo Pavilion Renovation Project

PROJECT OVERVIEW: Complete renovation of the mechanical, electrical, plumbing, fire protection, and communication systems, and structural, seismic, and accessibility upgrades. Exterior building improvements include restoration of the promenade and façade, and renovations to the site landscaping, outdoor showers, and covered walkway, also known as a “stoa,” which is adjacent to the playground.

PROJECT BENEFITS: These improvements will enable the City to increase and enhance recreational programming for adults and youth, achieve a modern social event center, and support beach activities. The facility will be more usable, accessible, comfortable, and safe, and serve as a year-round community hub.

QUICK FACTS

Location: 1118 East Cabrillo Boulevard between Ninos Drive and Corona Del Mar Drive

Construction Schedule: winter 2018 to fall 2019

Total Project Costs: \$16,700,000

Funding Source: Multiple sources with a majority of funding from Redevelopment Agency Bond proceeds, and Measure C funds
